Your # 1 Source for Service and Support

Rental Programs

for New Artisans or First Time Bankcard Merchants

Stationary Terminal

Process with any Digital
Cell Phone or Personal
Computer

Avoid being locked into long term leases or purchasing inappropriate equipment. MACNC offers month to month terminal rentals for economy and flexibility. All programs include Voice Authorization for increased security. You can choose a low cost **Start-Up Program** or a time saving **Portable Program** for ease of use at your booth and eliminate imprinting sales slips and keying transactions without the added cost of broadcast subscription fees. When your business is ready, for the added advantage of instant approval and reduced bankcard rates, you can upgrade at any time to a **Wireless Program**. From networks and terminals to software and downloading we have years of "hands on experience" to know what combinations of equipment and networks work well and those less reliable. Contact us. We know the landscape and can help you from years of "in the field experience" so you don't get lost.
